- 4 Also a proposal will not be fun to write even after the course, it will hopefully be at least a little fun for the peer with all the information I have now. Great course!
- 5 Good to get to know about critical points in proposal writing
- 6 Everyone can do it (writing proposals)
- 7 Inspiring and fantastic course for all people in science who need to write proposals of any kind! I feel like my thoughts are much more structured when revising the proposal! The rules are clear. My Dad writes lots of real proposals for the NIH. He could profit lots too from this course! Maybe I can send him to it next year!
